

Steps for Setting Up Your Facebook Fundraiser! ON MOBILE:

1. **Access your Facebook account.** (If you don't have one, this would be a great reason to create one!)
2. **Click on the three lines on the bottom right of your screen to bring up the menu.** Scroll down until you see **“Fundraisers”** (might need to select **“See More”** to see more menu items.) Click on this.
3. Select the button that says **"Raise Money"**.
4. Select the option that says **"Nonprofit" and search for Hope Africa Collective.**
5. **You can then edit the photo and description of your fundraiser to your liking.** The funds raised from your fundraiser will go directly into our job empowerment programs to source tools and education materials for our students. If there's a specific Hope Africa program you want to raise money for (i.e. just for the Hair Salon Training program or just for the Trade Skills program), you can put that into your description.
6. **Set the amount you want to raise for your fundraiser.** You can use the numbers as mentioned in the blog post as reference points! Your fundraiser will directly impact one or more of our students living in poverty. In many cases, our students are trying to provide a living for their whole family who are dependent on them. YOU could empower a whole family in climbing out of poverty, just by a simple fundraiser on Facebook!
7. **CREATE!** Hit the **“Create”** button to launch that fundraiser! You will then be directed to invite your loved ones, share the fundraiser in your news feed, and donate to your own fundraiser to encourage others in joining you.
